22nd CONVENTION OF THE UYL-NA REFLECTS PROGRESS OF THE LEAGUE

One of the best ever held, the 22nd Convention of the Ukrainian Youth's League of North America, held during the past Labor Day weekend in Hotel William Penn in Pittsburgh, Pa. evoked the feeling among those attending it, both delegates and guests, that the achievements of the League during the past years will be surpassed during the coming year.

Viewed from any angle, the convention was definitely a success.

The delegates and guests were from various parts of the country and Canada as well.

What distinguished it from previous UYL-NA convention was that it was held under the commission meeting procedure, combined with the plenary sessions.

Commission Meetings

There were three commissions, namely, Cultural, headed by Joanna von Draginda, Financial, headed by Joseph Gurski, Policy and Procedures, headed by William Polewchak, and Sports headed by Alexander Pronechik.

The meetings of the four commissions were well attended by the delegates, and discussions were interesting and constructive. Reports of them were made by the commission chairmen at the plenary session of the convention on Monday and proper action was taken on them by the conventioners.

The first plenary session was held Saturday. The Friday day night before a social was held for the early arrivals, which was enjoyed by many. The same at Saturday's Mel-come Dance.

The convention meeting was opened by the singing of the American, Canadian and Ukrainian national anthems. The delegates were greeted by John Mitchell, chairman of the Convention Committee. Michael Solomon, retiring president of the League, formally opened the convention.

Convention Officers

Elections of the convention presidium ensued. Eugene Woloshyn, former UYL-NA president, of Cleveland, Ohio, and Joseph Smindak, of New York City, who headed the convention's Resolutions Committee, were elected as convention Co-Chairmen.

Stephanie Zborowsky and Vera Strawniak were elected as convention secretaries.

New Officers

The following were elected on Monday as officers of the UYL-NA: President, Walter Hubchik of Detroit, Michigan; Vice Presidents, Andrew Boyko of Cleveland, Ohio, Leon Kossar of Toronto, Canada, Laverne Korduck of Chicago, Ill.; Treasurer, John Mitchell of Pittsburgh, Pa.; Financial Secretary, Myron Surmach of New York City; Recording Secretary, Dorothy Sevchuk of Elizabeth, N. J.; Advisors, Walter Warwick of Toronto, Canada, Michael Solomon of Cleveland, Joseph Smindak of New York City, William Polewchak of Elizabeth, N. J., and Walter Bacad of New York City.

Resolutions

A series of resolutions were passed, pertaining to the various phases of the League's activities, as pin-pointed by the

four commissions. Their text appears on these pages.

Music and Dance Festival

The Convention's Music and Dance Festival, held Sunday afternoon, at the Nixon Theatre, and attended by well over twelve hundred persons, was definitely of high quality, comparing well with similar affairs held in the past in conjunction with the UYL-NA conventions.

In one respect, it surpassed all those before it, namely, in the dancing, presented by the combined groups of the Ukrainian Dancers of New York, with Walter Bacad, William Polewchak, co-directors, and the Ukrainian Dancing Society of New York, director of which is John O. Flis. The choreography and the execution of the dances was truly excellent. A great deal of credit here belongs also to the accordion music supplied for the dancers by Tom Shepka.

The Pittsburgh Convention Chorus directed by Theodore Kotula, was very good, well blended, good voices, particularly in the young-women's section. Especially pleasing was the soprano solo in the Orphan's Lament by Anna Komichak. Good solo work was done also by John Shabatara and Jean Haritan. The Quartette Verkhovyna of Toronto, Canada, Olga Hlibowych, pianist, Stephanie Klost, director, brought rounds of applause by its harmonious singing. John Suszynsky, pianist helped to make the program an enjoyable one. Much credit for the success of this music and dance festival is due to its director, Michael Komichak, who has his own weekly radio broadcast in Pittsburgh.

TV Show

Through Mr. Komichak's efforts, the New York dancers appeared Monday morning on a TV program. Mr. Komichak's radio program, held on Sundays, was featured by talks by UNA president, Dmytro Halychyn, in Ukrainian, and UNA vice-president, Michael Piznak.

Banquet

The social highlight of the Convention was the banquet and ball held Sunday evening at the hotel. Chairman was

TEXT OF RESOLUTION PASSED AT THE TWENTY-SECOND CONVENTION OF THE UKRAINIAN YOUTH'S LEAGUE OF NORTH AMERICA

Whereas, the present ostensible relaxation of international tensions marks a change in Communist tactics and not a change in their ultimate goal—the domination of the world—and

Whereas the United States of America and Canada are the final source of moral, economic and military strength capable of resisting and defeating Communism and its machinations,

Be it resolved, (1) that the Ukrainian Youth's League of North America extend and intensify its efforts to further general public knowledge and understanding of the true nature of Communist Russian imperialism; of the perils posed by this international conspiracy and of the propaganda techniques employed by imperialist Moscow, this in the interest of strengthened internal security, moral non-appeasement, and peace coupled with the advance of freedom. Be it resolved

"Soyuz Ukrainok" Holds Its 11th Convention

The strengthening of the spirit of Christianity, on this year's 1,000th anniversary of its introduction into Ukraine, and the moral and material support of the efforts being made to help Ukraine become free and independent of Soviet Russian communist and atheistic misrule, were among the principal topics dwelt upon at the 11th convention, held during the past Labor Day weekend at the Bellevue-Stratford Hotel, Philadelphia, Pa., of the 30-year-old nationally representative "Soyuz Ukrainok" Ukrainian American women's organization.

The convention sessions were opened by convention committee chairlady, Miss Anne Sywulak. Mrs. Katherine Peleshok of New York was elected as chairlady. Reports were delivered by the officers of the organization, led by its president, Mrs. Helen Lototsky, who was re-elected by a unanimous vote for the next three-year term. UNA Representatives Confer in U. S. State Department on Policy Of "Non-Predetermination"

Upon an invitation of the State Department of the United States, to consult it on important matters, extended during the last convention of the Ukrainian National Ass'n held in Washington, in 1954, to UNA representatives in the course of a special conference held then by them with State Department officials, a delegation of UNA representatives, consisting of Mr. Dmytro Halychyn and Michael Piznak, president and vice-president, respectively, of the Ukrainian National Association and Mr. Antin Dragan, editor of Svoboda, the UNA organ, conferred in the State Department last Wednesday, September 7, with proper officials concerning the policy of "non-predetermination" in its application to Ukraine and other enslaved nations.

The deliberations, which lasted quite some time, were conducted on the basis of a memorandum on the subject, addressed and presented to the State Department by the delegation. The document was signed by Mr. Halychyn, the UNA president.

Memorandum Heartily Approves Eisenhower's Stand in Geneva. The memorandum heartily approved, in the name of the UNA members, President Dwight D. Eisenhower's forthright representation of intervention in behalf of the enslaved nations at the recent conference of the heads of the four Powers in Geneva.

The memorandum also declared that the membership represented by the Ukrainian National Association also feels great satisfaction and gratitude for the resolution of the United States Congress adopted prior to the Geneva Conference, expressing the sympathy of the people of our country for the enslaved nations and their struggle for freedom.

The memorandum declares that "we are deeply disturbed by certain political tendencies. For although we, with all other Americans and peace-loving nations, heartily approve the efforts of our Government to secure lasting peace, nevertheless we have serious fears that not all the methods in these efforts lead to this goal, but that, on the contrary, some of them may be leading us in the opposite direction."

In relation to the Policy of Liberation and the Policy of Non-Predetermination, the Ukrainian National Association memorandum recommended to the State Department that it re-examine its policy, and made the following recommendations, that text of which is below:

1. Ukraine, Byelorussia, Georgia and the other peoples of what is now the Soviet Union welcomed President Wilson's statement of the right of self-determination and took advantage of it in a legal and democratic manner after the First World War of 1914-1918, by establishing their sovereign and independent States, which—as in the case of the Ukrainian National Republic—were recognized by several foreign States.

2. This fact of self-determination has never been denied by the Soviet rulers, who declared war on the above-mentioned countries and then occupied and annexed them, but nevertheless, both on paper and in their constitution, acknowledged the fulfillment of this self-determination, although not respecting it in practice. We cannot overlook the paradox that Communist Russia which has actually enslaved and is greedily exploiting Ukraine has not ventured to reject formally the self-determination of the Ukrainian people, and has even included it in its constitution and has worked for the admission of Ukrainian SSSR as a full member with equal rights in the United Nations, whereas the United States, which consented to this, is now advancing the concept of "non-predetermination," although it should in reality be the chief defender and supporter of the principle of free self-determination as declared by the people themselves.

3. American official policy, which now advocates the concept of non-predetermination, is turning back the wheel of history half a century, ignoring the perfectly formal and equally accomplished right of self-determination of nations after the First World War and indirectly approving the Soviet aggression against these independent and sovereign States and their forcible occupation by Soviet Russia. 4. Through the policy of "non-predetermination" the United States becomes a party to the genocide practiced by communist Moscow on the non-Russian republics, for the Soviet governmental machine, held and controlled by "Great Russians," does its utmost to create a situation such that, in case of the fall of bolshevism, the fulfillment of self-determination will help only Great Russian interests. Hence, the American policy of non-predetermination will simply encourage the present Soviet Russian rulers to continue and accelerate the long practiced policy of genocide by mass liquidation and mass exile of local non-Russian inhabitants and by colonizing each non-Russian ethnic territory with "Great Russians." Therefore, the official American concept of "non-predetermination," when applied to the "predetermination" of the non-Russian republics of the Soviet Union, not only has no legal or moral foundation, but it becomes a crass rejection of the most fundamental American democratic principles and brings great harm to American interests, which coincide with the interests of the entire free world and of all freedom-loving humanity. Re-Examination of Policy Urged. Therefore, we consider the re-examination of this policy and its change as the most pressing necessity of the day, and for this reason, having in mind the best interests of our country, we respectfully submit the views and opinions as set forth in this memorandum to the State Department,—the UNA memorandum stated.

THE FIRST INDEPENDENT UKRAINIAN NATION

Thus, by the very geographical position of their country, the Ukrainians were made into the vanguard of the western world against the hordes of white and yellow nomads rolling in waves through the "gate of the people."

Prince Svyatoslav of Kiev, who also led expeditions into the Balkans and made treaties with the Byzantium king, broke the power of the first of these invaders, the Khazars. But the nomads, in the words of the chronicles, were as invulnerable as the locusts. After this first wave came a second, after the second, others—and all of them moved on toward Kiev.

The nomads turned to the east, but the Chinese Wall was strong. New hordes repeatedly invaded Ukraine. Now came the Turks; fortunately their history was short.

As early as 1060 the Ukrainian Princes had taken the offensive and scattered the new, uninvited guests from the east. Having defeated this enemy they met with another, a third and still more dangerous foe, the Polovtses.

ed the eastern hordes in their attempted invasion of Europe. Behind this living Ukrainian barrier grew that medieval culture which laid the cornerstone of the imposing structure of later civilization in Europe and in America.

Deprived of their government the disorganized people, weak and discouraged, thought that a foreign state might protect them.

From the very first the party has been eagerly reading accounts of its visit to Canada. What brought about the switch was a brief story in a Toronto newspaper stating that the city had intended officially to ignore the delegation's visit.

In this moment of extreme necessity there flamed up anew the energy of the people. Left to their own resources, without the help of the Polish government, to which, in 1569, they were united against their will.

These new champions of Ukraine were the Kozaks. (To be Concluded)

"TRIALS AND TRIBULATIONS" OF THE SOVIET AGRICULTURAL DELEGATION IN CANADA

The Soviet Russian agricultural delegation decided to bypass Toronto. It had a rough going in Winnipeg in form of a demonstration by Canadians of Ukrainian and other nationality extraction.

Lester B. Pearson, External Affairs Minister, was luncheon host to Vladimir Matskevich, delegation leader.

The Department of External Affairs so far had nothing to do with the visitors, who have been guests of the Department of Agriculture.

The New York Times correspondent in Ottawa reports that, "it is apparent that the Canadian government has no intention of making a formal apology for the rough reception given the Russians in Winnipeg and elsewhere."

In Ottawa the members of the Soviet farm delegation went about their work, ignored by an apparently indifferent city.

During the demonstration against them in Winnipeg, which was widely reported in the Canadian and American press, the Reds were handed a very eloquently and truthfully worded circular signed by the "Antibolshevik Bloc of Nations (Manitoba Branch) and Participating Ukrainian National Organizations."

Addressed to "Fellow Canadians and Citizens of Winnipeg," and dated August 31, its text is as follows: There came to Winnipeg tonight the Soviet delegation of the so-called "farmers" from the USSR.

Labor Department Compiles School Job Data on Youth

Washington, D.C.—The U.S. Department of Labor has released a series of tables on school enrollment and youth employment based on the 1950 census.

The tables present information by States and show that there was a wide difference among the States in the proportion of youth 16 and 17 years of age enrolled in school.

kraine, Byelorussia, Latvia, Lithuania, Estonia, Slovakia and other countries behind the Iron Curtain.

They have deprived the farmers of land and of the right to own land privately; they have organized collective farms which are in practice slave labor camps.

This delegation is comprised of political agents whom we do not wish to see in Canada.

We wonder how members of this delegation would answer the following questions. 1. Exactly why has the parallel American delegation of farm representatives not been given real freedom of movement in the USSR?

2. Why is there no freedom of religion in the USSR? 3. Why was there a famine in the Ukraine in 1933, at a time when harvests were very good?

4. Why are there in the USSR so many prisons, concentration camps, and slave labor camps? 5. Why is it not possible for us to bring to Canada from the USSR members of our immediate families?

6. Why are you purposely and forcibly propagandizing New Canadians to return to their "homelands," when these same Canadians fled from these enslaved territories and will never return there from a free and truly democratic Canada?

Our Wishes to the Members of the Soviet Delegation

Our listeners know about Mr. Chopyk's activities in Europe in the last two months from our previous broadcasts.

Please examine carefully the life of freedom which is enjoyed by the average Canadian farmer. Kindly note the worldly goods which he owns and possesses—his farms, his buildings, his machinery, his livestock, and his poultry.

Please visit the Canadian worker. Ask him what he earns! Go into his fine home, sit on his luxurious furniture, and enjoy a television program.

Tell us truly, how many farmers and workers are there in the USSR who have their own homes and who live in such comfort as we do in Canada?

Happy is the man who is content to traverse this ocean to the heaven of rest, without going into the wretched diving-bells of his own fancies.—There are depths; but depths are for God.—Evans.

MESSAGE TO UKRAINE

Mr. Walter V. Chopyk, of Buffalo, N. Y., recently returned from Europe, was interviewed in Montreal, Canada by Mr. G. R. B. Panichuk, director of Ukrainian Section of the Canadian Broadcasting Corporation.

The Interview

An important guest from America paid a visit to our studio in Montreal. He is Mr. W. Chopyk, secretary and public relations representative of the City Council of Buffalo, New York.

Our listeners know about Mr. Chopyk's activities in Europe in the last two months from our previous broadcasts.

In London Mr. Chopyk was the guest of the Lord Howard of London, and presented him on behalf of Mr. Steven Pankow, Mayor of Buffalo, with the gold key of the city of Buffalo.

In Rome Mr. Chopyk visited the Gondolfo Palace, which is the summer residence of His Holiness Pope Pius XII.

While visiting in London, Paris, Rome and Geneva, I had the opportunity of meeting our brothers and sisters in those countries, of observing how they live, what they do, and how they are working for the cause of Ukraine's liberation and the general welfare of the Ukrainian people.

In particular, I want to express greetings to you all from Mr. Steven Pankow, Mayor of the City of Buffalo, in the State of New York, and to tender from him and our entire City Council their sincere good wishes to Ukrainians in the whole world."

In Geneva Mr. Chopyk was accompanied and assisted in his work by Mr. Mychailo Yaremiv, prominent in Ukrainian affairs in that city, and former secretary of the Ukrainian Central Rada (Council). During the conference of the leaders of the four Great Powers in Geneva, Mr. Chopyk organized a large press conference where more than one hundred reporters and journalists from all over the free world were present.

At this conference Mr. Chopyk presented those present with copies of the Memoranda issued by the Ukrainian Congress Committee of America and the Ukrainian Canadian Committee, and explained and defined the views of Ukrainian independent patriots on the policy of "co-existence" with Communist countries.

Geneva to Paris

From Geneva Mr. Chopyk went to Paris, where he attended the World Conference of the International Alliance of Young Men's Christian Association, well known under the abbreviated name of 'Y.M.C.A.'

We are very happy that we had the opportunity to invite Mr. Chopyk to visit our studio, so that he could give his message of greeting to you personally.

Mr. Chopyk's Message

"It is a great pleasure for me to greet all Ukrainians in their native land on behalf of the Ukrainian Congress Committee of America and the Ukrainian people of America, and even more particularly in the name of Ukrainians of and Switzerland.

The Veterans Administration announced this week that homes not affected by FHA credit controls also may be eligible for 30 years no down payment GI loans providing the Veterans Administration receives appraisal requests on or before September 30, 1955.

The affected homes are those for which the necessary paper work had been completed by FHA before their controls went into effect July 30, 1955.

VA Field Stations have been instructed to obtain satisfactory evidence of homes not covered by FHA credit controls before excluding them from VA credit requirements.

VA credit requirements which also became effective July 30, 1955, call for a 2 percent down payment and a loan maturity not to exceed 25 years.

VA emphasized it can exclude homes not affected by FHA credit controls only if requests for GI appraisals on these homes are received by VA on or before September 30, 1955, and satisfactory evidence of their exclusion from FHA credit controls can be obtained.

YOUR BABY AND THE UKRAINIAN NATIONAL ASSOCIATION

Dear Parent: Your Baby has a right to happiness! Not only do you recognize your baby's right to happiness, but you will do anything to secure that happiness for your baby!

But babies grow! From infancy to childhood, to adolescence, and then to maturity! In spite of your worries and troubles in bringing up your son or your daughter, the years pass only too quickly, and before you realize it, your baby becomes a young man or a young lady!

Remain to you, he or she will remain a baby regardless of age! And you will strive for the happiness of your boy or girl as long as you live!

Look forward to the day when your baby will be leaving the "teen" age and in your mind you will be preparing your baby for a higher education or, later on, for a wedding.

When that time comes, the Ukrainian National Association may become your "Friend in Need" provided that YOU ACT NOW!

How the UNA Can Be of Help

A 20 Year Endowment certificate, taken out now, will bring to your baby one thousand, two thousand, or three thousand dollars in twenty years, at a time when money is most urgently needed.

Additional Security

After you have taken out a

U.N.A. certificate for your baby, you may feel further anxiety concerning your baby's future. You may be thinking: "In case, God forbid, I should pass away, how will my baby pay the dues on the certificate I have taken out?"

The answer to that question is PAYOR BENEFIT. By adding a few cents to the dues, your baby will be released from paying any dues until the age of 21 years in case of your untimely death.

The additional monthly contribution for PAYOR BENEFIT is figured on the basis of the amount of insurance, baby's age, and your (parent's) age.

Withdrawal Equities

One more supposition—what would become of your baby's insurance if, after paying dues for several years, you should be unable to continue the payments?

If this should happen to you, you could take cash or a loan on your baby's certificate, the amount depending on the number of years the certificate had been in force.

Plan Your Baby's Future

Only a parent can understand the pleasure found in planning baby's future. There is a continued satisfaction when the plan is put into operation and each year in the child's life brings it closer to maturity.

Hazardous Occupations Order For Young Workers Amended

Washington, D.C.—The U.S. Labor Department announced a ruling which will permit 16- and 17-year-old workers to ride on freight elevators when the elevators are run by assigned operators of legal age.

The ruling, effective August 31, amends Hazardous Occupations Order No. 7, issued under child labor provisions of the Fair Labor Standards Act.

However, the ban against 16- and 17-year-olds riding unattended freight elevators was retained in the amendment. The

Secretary of Labor is responsible under the law for determining occupations particularly hazardous for minors.

"In carrying out the responsibilities under the act, maximum protection for young workers will be provided while at the same time leaving the door open to all safe and suitable employment," the Department announcement said.
