If the Free World wants a victory over Communism without nuclear war, it must aid national revolutions behind the Iron and Bamboo Curtains...

"In this connection," he said, "the so-called conventional, classical fighting forces of the Free World must be made at least proportionately equal to those of the Moscow bloc."

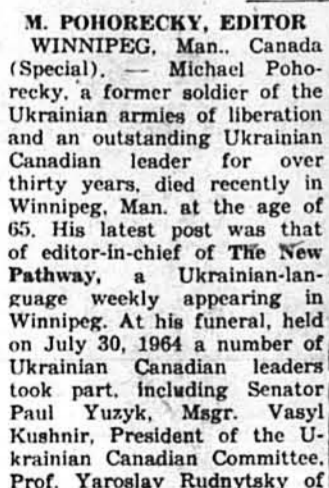

"The decisive factor lies in reducing the human potential of the armies at Moscow's disposal as far as possible," he continued, "and this is possible if the Free World adopts an entirely different method of political and psychological warfare..."

"Russia constantly utters the threat of a thermo-nuclear war, but it is terrified by na-

Senator Dodd of Connecticut Is Favored for Vice-Presidency On Democratic Ticket

WASHINGTON, D. C. (Special). — There are growing numbers of important voices inside and outside the U. S. Congress who are suggesting U. S. Senator Thomas J. Dodd of Connecticut as a powerful vice-presidential candidate on President Johnson's Democratic ticket this fall.

In view of the fact that Representative Miller, Senator Goldwater's running mate, is a Catholic from the State of New York, its puts pressure on President Johnson to balance his own ticket with another strong candidate with superior qualifications and an impressive record.

Seasoned observers believe that none of these potential vice-presidential candidates can equal the qualifications of Senator Tom Dodd. One of Senator Dodd's biggest assets is his utterly unquestionable stand on Communism.

Like Bill Miller, Senator Dodd is also a Roman Catholic from a densely populated northeastern state. Moreover, in 1960 Senator Dodd supported Lyndon Johnson at the Democratic National Convention in Los Angeles and delivered a seconding speech in the President's behalf at the Convention.
