U.C.C.A. OUTLINES ITS POLICIES

NEW YORK, N. Y. (UCCA Special).—On Saturday, March 20, 1965 the Board of Directors of the Ukrainian Congress Committee of America held its meeting, which was attended by 43 members out of 60. A series of vital and important decisions were adopted and also resolutions outlining major policies and objectives of the UCCA were passed.

During the meeting, which lasted from 11:00 A.M. until 7:00 P.M., Dr. Lev E. Dobriansky, UCCA President was the principal speaker, who gave a report on the activities of the UCCA and presented a 10-point program of UCCA policies to be followed by the organization. Other rapporteurs at the meeting were Dr. Matthew Stachiw, a secretary of the UCCA, who dwelt on a series of purposes and tasks which the UCCA is implementing through its Branches and Member Organizations, and Dr. Jaroslav Padoch, UCCA treasurer, who reported on the Ukrainian National Fund and outlined a series of proposals aiming at the substantial increase and stabilization of the budget of the UCCA.

In his 10-point program, Dr. Dobriansky gave an outline of the basic objectives of the UCCA:

- 1. The UCCA's primary objectives is to work for the contribution to national security of the U.S.A., as this organization by its very functioning and purpose is an American organization with membership hailing from those of Ukrainian descent;
2. Decisive defeat of Russian Imperio-Colonialism not only in the interest of Ukraine and other captive nations, but also for U.S. security and that of the free world as well;
3. Maintenance of worldwide contacts with free Ukrainians and contacts with non-Ukrainians as well, working with them toward the attainment of the ultimate objectives, but always with American orientation;
4. Cooperation with other American ethnic organizations which have the same over-all objectives in defeating Russian communist imperialism and establishing of genuine freedom everywhere;
5. Avoidance of myopic involvements over territorial problems with various neighbors, keeping always in mind that the victory over Russian communism has a priority over all other problems;
6. Advancement of Cold War Strategy Idea in opposing a "peaceful coexistence" policy of the Russian brand, and rejecting "contacts" on any official level;
7. Rejection of common guilt of unvested Russian people for the crimes committed by their totalitarian masters;
8. The necessary dismemberment of the Soviet Russian empire as a prerequisite of lasting peace in Europe and Asia;
9. Intensified policy for national self-determination, which today constitutes a veritable "nuclear spiritual device." The UCCA in advocating this policy is aware that the non-Russian nations of the USSR, such as Ukraine, Byelorussia, Georgia, Armenia, Turkestan and others had already self-determined themselves when they established their independent states in 1918-1921;
10. Work toward a gradual federation of Europe and Asia, with all nations preserving their national and cultural identities and independence.

President Johnson's Policies In Vietnam Endorsed by UCCA

NEW YORK, N. Y.—On Saturday, March 20, 1965 the Board of Directors of the Ukrainian Congress Committee of America held a meeting, at which a special resolution was adopted expressing full and unequivocal support of President Johnson in his policies and actions in Vietnam.

The telegram, dispatched to President Johnson read as follows: Dear Mr. President:

The Board of Directors of the Ukrainian Congress Committee of America, speaking on behalf of over 2 millions Americans of Ukrainian descent at a meeting held at the Statter-Hilton Hotel in New York City on Saturday, March 20, 1965, unanimously adopted the following resolution:

We wholeheartedly support your recent decision to apply sterner steps and measures in Vietnam not only to protect American Soldiers, Marines, Sailors and Aviators who were sent to South Vietnam under express agreement between the United States Government and

the Government of South Vietnam, but also to manifest the willingness of our great country to prevent Communist takeover of Southeast Asia. The United States Government, as the leading power in the world cannot afford to withdraw from South Vietnam because such a step would be tantamount to surrender and shameful retreat before communist aggressors from Hanoi, Peking and Moscow. Moreover, in view of your intrepid and far-sighted move to root out communist guerrillas in South Vietnam, we urge you to accommodate South Vietnamese psycho-political warfare further north, to North Vietnam, warning the captive people of that communist satellite that their aggressive communist masters will eventually meet their doom. We further add that all your actions in the promotion of peace, justice and freedom in the world will be fully and unequivocally supported by our organization and our membership at large.

TWO AMERICAN ASTRONAUTS MAKE HISTORIC FLIGHT IN MANEUVERABLE GEMINI CAPSULE

CAPE KENNEDY, Fla. — March 23. — Air Force Maj. Virgil I. (Gus) Grissom, 38, and Navy Lt. Cmdr. John W. Young, 34, orbited the earth three times in the world's first maneuverable manned spacecraft, signifying a historic accomplishment by American astronauts in this country's program to land a man on the moon.

The Gemini 3 performance has demonstrated many important things, according to flight director Christopher Kraft. "The Russians have not claimed orbital changes for their spacecraft, and as far as we know, they have not gotten these changes," Mr. Kraft stated.

Furthermore, the Gemini 3 proved itself strong enough to maneuver down through the steel-searing atmosphere and land at a designated spot; it carried two astronauts who could maneuver the spaceship without ground control and bring it down with comparative ease.

The Gemini 3, experts say, opened a new era in man's use of space, as Major Grissom flew it with its nose forward and backward and upside down, and changed its flight path three different ways on a three-orbit journey.
